## About TowerBrook

TowerBrook is an investment management firm co-headquartered in New York and London. We are modern value investors focused primarily on transforming services businesses across four sectors in Europe and North America: business services, consumer products and services, financial services and healthcare. We champion founders, entrepreneurs and management teams as they grow and transform their companies, helping them to become long-lasting leaders in their industries. We invest through our Private Equity strategy, our Structured Opportunities strategy, and our impact Delta strategy, as well as bespoke private investment mandates for select institutional and strategic investors, allowing us to access a range of opportunities throughout the cycle.

- TowerBrook's Private Equity (PE) strategy makes majority investments in large and midsize companies headquartered in North America and Europe. Based on a clear thesis for value creation, we support management teams with the transformational capital, skills and resources required to build excellent businesses.
- TowerBrook's Structured Opportunities (TSO) strategy makes minority investments where our capital, experience, and portfolio group can energize and enable businesses. TSO supports management teams looking to accelerate business growth and market impact outside of a traditional buyout.
- TowerBrook's Delta strategy (Delta) partners with founders and management teams of purpose-driven companies that have a proven commitment to impact and a business model that directly addresses one or more of the UN Sustainable Development Goals. Delta invests in growing, profitable companies with durable competitive advantages whose products or services create positive measurable outcomes for people or planet.

As a purpose-driven investment firm, TowerBrook is committed to responsible ownership. Responsible ownership considerations are integrated throughout our investment process and drive the development of policies, action plans and metrics for our portfolio companies. We describe TowerBrook's approach to responsible ownership in terms of five Ps: starting from a shared Purpose, we focus on People, Planet and Partnership, all of which contribute to delivering the fifth P: Performance. We hold ourselves and our portfolio companies accountable to our investors, their beneficiaries and all our stakeholders. This requires a commitment to fundamental value and a highly disciplined approach to the assessment and management of our investments. We seek to make a lasting, positive contribution to the stakeholders in our business and to the communities and environments in which we operate. That means both investing consistently in accordance with TowerBrook values, and holding ourselves and our portfolio companies accountable in how we operate.

TowerBrook is a signatory to the United Nations Principles for Responsible Investment and is the first mainstream private equity firm to become a Certified B Corporation, reflecting our deep commitment to Responsible Ownership.

TowerBrook carries out business in the UK through its UK-based affiliate, TowerBrook Capital Partners (U.K.) LLP, which acts as a sub-advisor to affiliated funds under management in relation to investments in the UK and Europe. TowerBrook Capital Partners (U.K.) LLP is authorized and regulated by the UK Financial Conduct Authority, and has its principal place of business in London.
